

TO WHOM IT MAY CONCERN

Re : Brendon Hamill – Fineway Construction

We used the above building company owned and operated by Brendon Hamill in 2007/2008 to build a new extension and carry out major renovations on our Villa in Bombay.

This particular job was not as easy as building new given the fact that it is a villa with high stud, sash windows, bay windows and french doors. What we required was to renovate the existing Villa as per the original style and add on another living area with new kitchen, bathroom and bedroom area.

Brendon has a great team, who worked well together, and nothing was ever too much trouble. Right throughout the project, from the design stage forward all our requirements were discussed and there were never any problems. Once again, a little more difficult trying to find the right materials to fit the character of this style of home, but Brendon gave great advice and had the knowledge to ensure that everything came together as it should. We were fully informed always, regarding delivery of materials and what stage we were at, both in terms of time, and money so that we could make informed decisions on a daily basis.

Our home has been completed to a high building standard and we know that we can rest assured that we have a structurally sound and safe home that has turned out to be exactly what we wanted if not more.

We would recommend Fineway Construction for any building project you may be about to undertake and know that you will find Brendon and his team honest and reliable.

Yours faithfully

Ian and Lea-Ann Higgin
