Mademoiselle ♥

*"When we look good, we feel great,"
says Karen Alexander Bright
of Mademoiselle.*

NEW TO MADEMOISELLE

Exclusive facials and treatments without Botox. The Hydradermie Lift is a lifting treatment with visible results from the first session.

Call for an appointment
or buy products separately.

I would like to say "thank you" to everyone who has been into Mademoiselle and made the first six months a wonderful journey. Together, myself and my staff are still taking baby steps. With the support of all who come to see us, we are slowly finding our feet – so come in and be part of the Mademoiselle experience!

Carlee and Emma are very busy in the Beauty Rooms and extremely excited about Guinot, a French Beauty House exclusive only to beauty therapists taking pride of place at Mademoiselle.

Guinot offers a range of exclusive facials and treatments for those of us who want to look younger but don't like the idea of putting Botox or fillers into our bodies. The Hydradermie Lift is a lifting treatment with visible results from the first session. It tones the skin and firms the face deep down by exercising the muscles. In depth, the muscles regain tone and firmness, cellular activity is reactivated and the features are lifted to spectacular effect. Hydradermie Lift acts like a gently body-building session. It lifts the features by acting on the muscles to give the face a rejuvenated effect. At the end of the treatment your face looks smoother and firmer. Recommended as a course of three treatments, Hydradermie Lift makes the face look visibly younger – with no injections! "Seeing is Believing"

Leighton Denny is a new nail range we also have exclusively and the results say it all. Come in and experience a Leighton Denny Immaculate Manicure or Pristine Pedicure – we are all hooked! New stock is arriving for spring and summer and is just beautiful. So, if you haven't been into the boutique come in and enjoy Mademoiselle as much as we all do.

Hydra Flex Treatment Regime

Treats dry and damaged nails. Hydrate, Strengthen, Conditions Healthy nails like a healthy body, are hydrated and supple. Loss of moisture and flexibility in nails as in skin and hair, can occur at any time, and anyone 40+ is more likely to have dry nails as moisture levels fall.

Brilliance Treatment, Bio-Build Treatment
and other Manicure and Pedicure products
and treatments. Sold separately or in kit.

Duo file

Hydra-flex treatment serum

An intensely moisturising and nourishing treatment. The Serum is massaged into the nail and cuticle. It boosts moisture levels and leaves an invisible, protective film on the nail surface. The nail should look and feel smoother and healthier immediately but repeated applications will bring best results.

Hydra-flex treatment polish remover

An innovative, fast acting polish remover and nail treatment in one. Combination of moisture and repair. It cleans off polish and, unlike most polish removers, it is also moisturising. It can be used on natural and artificial nails.

Hydra-flex treatment shield

A low gloss, clear coat with the HYDRA-FLEX compound of active ingredients, creating an instant strong and protective layer. It helps protect against staining or it can be worn alone as a treatment.
