

TOY - P51 D MUSTANG.
OWNER - GRAHAM BETHELL

What's your favourite toy? P51 D Mustang (closely followed by many other warbirds.....I also fly the Catalina, Harvard, RV6, Hawker Hunter Jet.....and a few others). So why do you do have it? It gives me great pleasure to be able to preserve, fly and enjoy this fabulous piece of aviation history. What's the reaction from your partner? My wife is fully supportive and very enthusiastic. What's your most favourite moment? When I am taxiing back to the flight line after having successfully displayed the P51 at an airshow. The crowd is happy, and so am I. Worst moment? There are times when following lengthy and complicated maintenance I receive a massive account for engineering services. Owning such an aeroplane is a huge financial commitment and there are obviously times when I wonder if it is all worth the effort. What's your dream toy? The Mustang.

Fred Bain - PBY Catalina "Enough room for a BBQ and deck chairs up here!" – Wanaka Air Show. One of the last two flying Catalinas in the world.

Ian Garney's pride and joy, this Cooper T56

TOY CHEVY JUNIOR SEDAN 1934,
ROOF CHOPPED, 350 CHEV V8,
AUTO TRANS. OWNER - VAUGHAN
& ANGELA WALTERS

What's your favourite toy? We bought it 19 years ago, Roof Chopped, Candy Apple Red, 1949 Ford Bonus – part of the family! Why do you do have it? Both our interests - has been 19 years of Hot Rods and now we go cruising with Iron Sands Rod & Custom which is a local club in Waiuku. What's the reaction from your partner? Ange was the one who wanted it and bought it!! as the project in the garage is taking a while to come together..... Ohhhhh what a good woman! What's your most favourite moment? Seeing it come up for sale again as we missed out the first time and being able to purchase it. Worst moment? Wipers stopped coming home from Beach Hop '08 in the pouring rain! Just as well we only got 8" of glass!! What's your dream toy? In the garage waiting to be finished, but when a dream is finished, it's time to dream again. Dreams are free.....projects aren't!!
