

This amazing creature crossed the road straight in front of us!

We saw plenty of monkeys and baboons. Jan totally fell in love with these playful creatures, especially the baby ones. You could watch them for ages, getting up to all sorts of tricks.

Another lucky viewing on our night drive. This leopard was hunting waterbuck so we were able to watch it for about 10mins before it walked down right beside the truck we were in and disappeared!

We travelled a lot of sand roads in Mozambique. This would be about the best sand road we travelled on, and we often found ourselves lost, with the majority of roads in worse condition than our farm tracks, although Rod did have some fun in our 4x4 hire vehicle. Mozambique is a MUST to visit, amazing place!

This is a typical load in Mozambique, their buses and taxis all look the same, piled high with luggage and jammed full with people.

Kruger Park – we got up nice and close to this elephant, truly amazing feeling to be only metres away!
