

Colours of Europe

Summer is all about colour, lovely soft colours that flatter you and your outfit. From Cristina's experience in Europe we know that colour will be even stronger next spring/summer, so be bold this summer and splash out on a pair of colourful shoes or sandals from our Oswaldo Pericoli collection featured or any of our other...

White is the new black and is strong in both clothing and accessories followed closely by the beige/taupe family which lead into shades of Yellows, Oranges and Red. The strong new colour group are the Blues through Lilac to Violet.
