

# Living The Dream

## 38' CRUCZAR Cruising The Hauraki Gulf

Owner Warren Brown exclaimed "Jeez we're getting along mate! Doin' about 12 knots and lovin' it, yeah this is my job!" Now imagine if we could all say this! Let me paint the picture for you a little more... A sunny day, 10-15 knots blowing North - West, Hauraki Gulf, Auckland city and Rangitoto Island in sight heading for Brown's Island and a good fun team on board for a day out!

Everyone has a dream, and for Warren it's been a life-long one and now, every day out, he's living it! His 38ft (11.6m) Tennant Sienna sailing catamaran Cruczar was launched late 2008 and was built on the spirit of pure passion. "Can't say why I got the itch, let's just say it's in my blood... there is just no other place that I would rather be than sailing on the ocean," comments Warren. "When it comes to sailing it's so great to have such a great amount of room, that's why I chose a catamaran over a mono hull." Indeed, there is heaps of room, featuring a covered cockpit space and outside table. It has two queen size berths and four singles all adult size, one head with a shower and a cockpit shower. The galley is located in the starboard hull and features a gas stove, a 75 litre fridge and a 92 litre freezer. It will easily accommodate two families.

In covering this story Warren asked me to fill the boat with willing deck crew! Well now, who would turn down a sailing adventure over going to work? Ummm let me see... no one! I asked that our Covergirl Sponsors come along and of course our Covergirl winners. Comments like "I can cook, so any chance of an adventure?"; "I can't cook but I play guitar and cards...."; but my favourite one... "I can open bottles of beer and help diminish the pantry weight to make the catamaran go faster!"

*A picturesque view from Brown's Island looking over Cruczar back to Auckland city*

*Too much fun to be had. Sitting on the top deck.*
