

Vitamin C + your daily sunscreen = even greater protection

Purchase a Joyce Blok SPF Sun Care product with a Serum CEF and receive a FREE Joyce Blok beach bag!

The damage caused by excessive sun exposure can be significantly reduced with topical vitamin C.

- Helps neutralise free radicals which damage the skin's structure resulting in ageing.
- Supports collagen production, which helps keep skin firm and smooth.
- Vitamin C serum is ideal for applying in the mornings, prior to your sunscreen, to further boost your skin's defence against UVA and UVB damage from the sun.

Joyce Blok Natural Skin Care is made by New Zealanders for New Zealanders and provides the best quality, natural source, active ingredients to suit local climatic and skin care needs.
