Joke of the month

The Job Interview

Reaching the end of a job interview, the human resources person asked a young engineer fresh out of MIT, "And what starting salary were you looking for?"

The engineer said, "In the range of \$125,000 a year, depending on the benefits package."

The interviewer said, "Well, what would you say to a five-week vacation, 14 paid holidays, full medical and dental, company matching your retirement fund to 50% of your salary, and a company car leased every two years, say, a red Corvette?"

The young engineer sat up straight and said, "Wow! Are you kidding?"

The interviewer replied, "Yeah, but you started it."
